**Mr. Leo Frazier  
18723 Ginger Court  
Germantown, MD 20874**

**Dear Mr. Frazier:**

**We would like to take this time to say thank you for the four computers you donated to us for our literacy/GED Program and for the computer up grade services that you have render to our organization. As you are aware, the Alliance of Concerned Men is a 501© non-profit organization that works with the under privilege and under served. These computers are being utilized in one of the DC Housing Projects called Park Morton. It is one of the District of Columbia's 14 hot spots in the city. Because of our successful programs in that community we have seen a reduction of criminal activities and drug abuse. We have also witnessed youth completing High School and going to College. It is people like you who are really making a difference in our communities, volunteering your time and your efforts to help those who can't help themselves that really counts. Please accept our deepest and heartfelt thanks for the work and gifts that you have contributed to the mission of the Alliance of Concerned Men, Inc.**

**Sincerely,**

**Arthur Rico Rush, Jr.  
President & Program Director, ACM**
